

6-12 Attendance

1) Check Student Pacing

- a) 6-12 Students should be On or Ahead of Pace within their courseware dashboard. This is what the student courseware dashboard looks like.

- b) Students who are found to be **On Pace & passing all classes will be counted present for the full 5-day week.**

- 2) If students are found to be Off Pace, we check their student activity to see how many minutes were completed within the attendance week.

**MPVA works on a 5-day week. The MPCSD calendar is followed and MPVA students are not required to work on holidays/snow days, etc. For those shortened weeks, students will need to take their daily time requirements times the number of days required to be in school. (e.g. Thanksgiving is a 3-day week, students would be required to put in their daily number of minutes times 3.)

- a) These tables show the number of minutes needed to be counted present per day.

6-8 (30 min per class daily)		
4 courses	5 courses	6 courses
120 min per day	150 min per day	180 min per day
600 min per week	750 min per week	900 min per week

9-12 (45 min per class daily)				
2 courses	3 courses	4 courses	5 courses	6 courses
90 min per day	135 min per day	180 min per day	225 min per day	270 min per day
450 min per week	675 min per week	900 min per week	1125 min per week	1350 min per week

- 3) If students are **failing 1 or more classes, they are considered Off Pace** and student activity is checked to see how much time was spent working within the attendance week. Students can be on pace within their courseware and failing classes, they are considered Off Pace and attendance will be based on minutes logged.
